Let's shoot!

I'm a full time photographer along the Emerald Coast and 30A in Florida and love what I do every single day. I've lived in 5 states and worked for some local magazines, been in the business for over 14 years, specialize in women's and adventure fashion portraits and spend time hosting a podcast.

NOTE ON RETOUCHING

I happily offer basic retouching on all the photos that you'll see which includes smoothing out areas or uneven skin tone or removing stray hair. If you see something slight you'd like me to change after seeing the gallery- i'd be happy to retouch one more time. However i don't body sculpt as I'm here to pose you in the best way, you're beautiful and you don't need it!

What to wear

The best thing is to wear something you feel confident in!

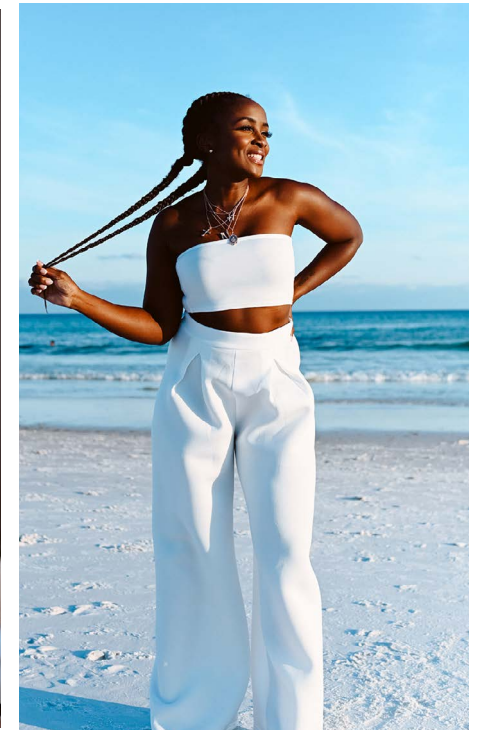

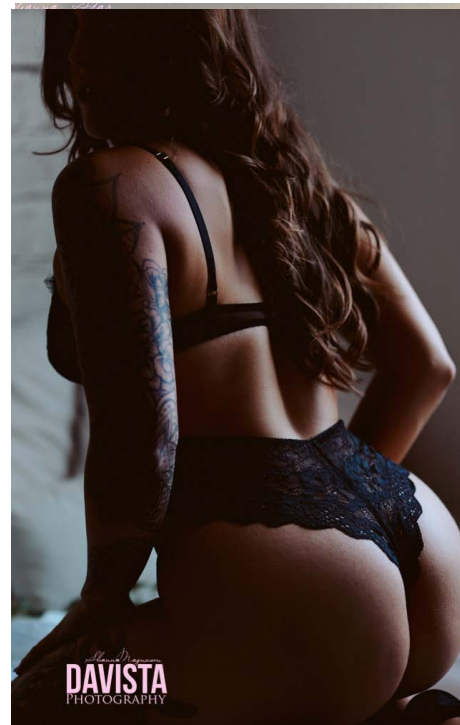

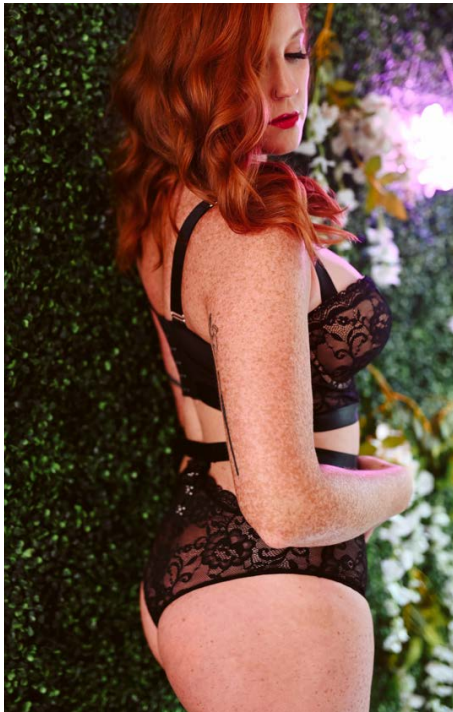

Tips

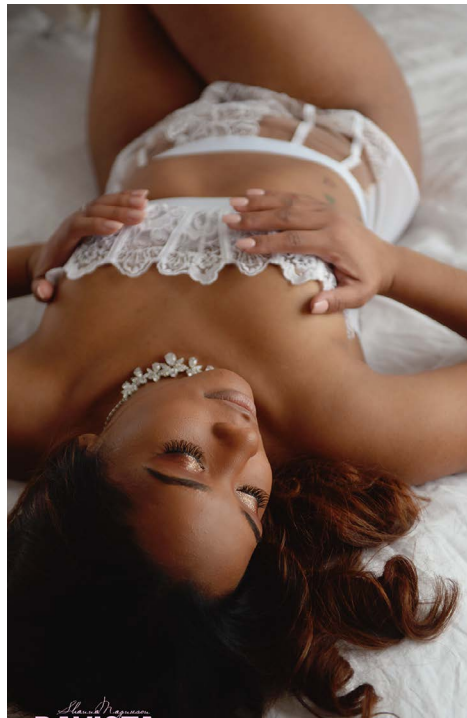

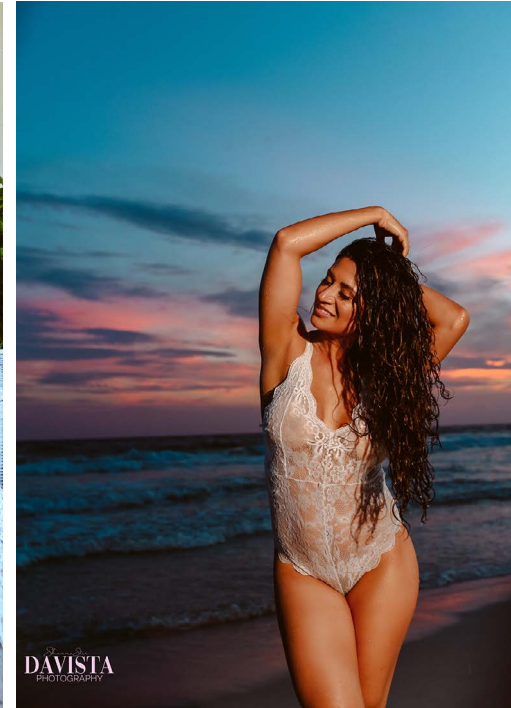

- Opt to bring pieces that can be layered to add more variety.
- I love colors- but make sure to bring one outfit that's neutral & classic
- in between sizes? go for the slightly larger so it doesn't tug and your fabulous curves
- I love bodysuits on every woman and can help show off in the best way!- but lingerie isn't the only way to feel sexy- a dress, long dress with a slit, comfy oversized,
- skip the babydoll lingerie- they're not as flattering in photographs
- bring the shoes, jewelry, fishnets, head pieces, and even those extra sexy things you love so we can incorporate them! and don't forget things YOU love- like books or comics or what showcases YOU

Where to shop

You probably don't need to buy anything new but just in case I have made some suggestions I've photographed before in my Amazon page!
