WHAT TO WEAR

What's on the outside should reflect inside, so the most important guideline for choosing what to wear during your session is to pick something you feel confident in. Choose options ranging from gowns, light summer dresses, to cute pant suits. will capture tasteful and flattering poses. Whatever you choose, we want you to feel beautiful and confident. Staying true to yourself is the most beautiful look of all! To get some ideas, check out the pinterst boards i've created under Shannamagnuson for inspiration!

DON'T FORGET THE DETAILS

- Call me!- we'll go over how you dreamed of being photographed and come up with exactly what you imagined.
- shoes to match everything. Not every shot will show shoes, but it makes you more confident and makes that booty look even better!
- jewelry
- Any props you want to showcase!
