# Let's shoot!

I'm a full time photographer along the Emerald Coast and 30A in Florida and love what I do every single day. I've lived in 5 states and worked for some local magazines, been in the business for over 14 years, specialize in women's and adventure fashion portraits and spend time hosting a podcast.

### NOTE ON RETOUCHING

I happily offer basic retouching on all the photos that you'll see which includes smoothing out areas or uneven skin tone or removing stray hair. If you see something slight you'd like me to change after seeing the gallery- i'd be happy to retouch one more time. However i don't body sculpt as I'm here to pose you in the best way, you're beautiful and you don't need it!

## WHAT TO WEAR

What's on the outside should reflect inside, so the most important guideline for choosing what to wear during your session is to pick something you feel confident in. Choose options ranging from gowns, dresses, jeans, jumpers-I will capture the moments and help pose the whole time. Whatever you choose, I want you to feel confident! Staying true to yourself is the most beautiful look of all! To get some ideas, check out the pinterst boards i've created under Shannamagnuson for inspiration!

### DON'T FORGET THE DETAILS

- Call me!- we'll go over how you dreamed of being photographed and come up with exactly what you imagined.
- high school extra curricular (sports, band, choir, etc)
- cute hats and shoes!
- variety of styles/outfits. i'll help you choose the best for in camera.
- shoes to match everything. Not every shot will show shoes, but it makes you more confident and adds an extra pop!
- jewelry

You don't need to spend a lot on new clothes so if you aren't sure styles, don't hesitate to ask me! I'll always have suggestions too! psst. try a fun bodysuit with jeans or a jumper for a fun look!
